Michele -

Before we post this report to the website, I wanted to double check BECI's numbers. Did BECI really generate 291,000 community service hours in November?

We can fix them on the report, but I don't know about actually correcting them in DOTS. I'll have to punt to Katie Hairston for that.

Katie?

Good morning,

I do not have very good news, but we need some help. Your question to me about the community service hours for November was a valid question and one that I think we have figured out. The problem that we have is that we tried to fix some of the numbers this morning for 2015 and the computer is saying that we can't go back and fix the hours. We only had until the 7<sup>th</sup> to fix the hours for last month. So the hours for October, November and December are not accurate. Is there any way that we can fix the hours now for 2015? We are identifying the correct hours to reduce from our totals, so at least you will have that information. We should be sending that information to you shortly! Thanks for listening and hopefully helping! I should have listened sooner!

You should give Michele a "heads up." This had to be reported. The CIIC was turning over the complaint they received to the IG.

Robin- I have been thinking about the amount of money that some inmates are donating to charity and the number of community service hours they are getting- especially since you show me Cornelius dollar amount- can you run a print out of all the inmates that received community service hours for the charity in 2015? I would like to take a look at hours for each one! Also- I am thinking about changing the notice to the inmates for charity being donations only and **no community service hours**- thanks! I will be back to BeCI on Friday
